COMMUNITY INVOLVEMENT

At the Disneyland Resort, we are committed to honoring the magic and legacy of Disney Parks by operating responsibly, and bringing happiness, comfort and inspiration to families in our community. Since 1955, the resort and its cast members have contributed to our local community in myriad ways including cash and in-kind contributions to local nonprofit organizations, leaders serving on boards and thousands of Disney VoluntEARS hours donated by our cast members.

In March, the Disneyland Resort announced a commitment of $5 million in grant funding to the newly revitalized Orange County Housing Trust, which has been retooled by Orange County Business Council and NeighborWorks Orange County. This was the first contribution by a private donor to the housing trust.

In 2018, the Disneyland Resort donated $600,000 to Chrysalis, a California nonprofit that has proven results in lifting individuals out of poverty by helping them find and retain steady jobs. Disney VoluntEARS also celebrated 35 years of giving back to communities around the globe in 2018, a program that started at the Disneyland Resort and has provided more than 10 million hours of volunteer service to date. Also in 2018, the Disneyland Resort donated 17,000 meals for families in need in collaboration with Second Harvest Food Bank of Orange County, while Disney VoluntEARS built an additional KaBOOM! playground in Anaheim, bringing the total number of Disney-sponsored playgrounds in the area to 13.

Each year, the resort fulfills approximately 700 on-property Wishes for children with life-threatening medical conditions, and hosts the largest pediatric fundraising walk in the nation, CHOC Walk in the Park, benefiting Children’s Hospital of Orange County. In August, the annual walk raised nearly $3 million. In addition to giving children hope, the Disneyland Resort inspires others to make a difference. Over a 10-year period, the Disneyland Resort will award all Anaheim sixth-grade students tickets to visit the Disneyland Resort when they make a positive impact in Anaheim through the Happiest Class on Earth program.

ECONOMIC IMPACT

For more than 60 years, the Disneyland Resort has been an economic engine for Southern California. An independent study concluded that the Disneyland Resort generates $5.7 billion annually for the Southern California economy. The study also showed that each year the resort generates more than $370 million in taxes – including hotel, sales, property and income taxes – for surrounding cities, counties and the state. In addition to its own 31,000-member cast, the resort supports more than 30,000 jobs in Southern California. Between 2005 and 2015, Disneyland Resort grew its workforce by approximately 65 percent.

THE ENVIRONMENT

The Disneyland Resort has an ongoing commitment to develop and implement environmentally responsible practices to reduce our impact through energy and water conservation, waste minimization and inspiring others to act with the environment in mind.

Single-use plastic straws and plastic stirrers have been eliminated as part of The Walt Disney Company’s commitment to eliminate these items at locations around the globe. In addition, the Disneyland Resort is reducing in-room plastics by 80 percent, reducing plastic shopping bags and eliminating polystyrene cups.

Nearly all water used at the resort is recycled through Orange County’s Ground Water Replenishment System. In addition, the resort incorporates water-savvy gardening and uses an on-site weather system to adjust irrigation based on changing weather conditions.

Compressed natural gas (CNG) is used to fuel the parking lot guest trams, Sailing Ship Columbia, rafts to Tom Sawyer’s Island, Jungle Cruise boats and Main Street, U.S.A. vehicles. In the last 10 years, Disneyland Resort has doubled the amount of waste diverted from landfills, including the 16 million pounds of food scraps processed into animal feed, and the donation and repurposing of gently used shoes, costumes, furniture and decorations.

The Disneyland Resort Hotels each earned the environmentalist certification from the California Green Lodging Program, the state’s top rating for travelers seeking green lodging.
