Walt Disney’s dream of “a family park where parents and children could have fun – together” became a reality for Europeans when Disneyland® Paris first opened its doors in April 1992. Since then, Disneyland Paris has helped several generations to create lifelong memories in the Disney tradition.

Disneyland Paris has grown with its guests to become Europe’s number one tourist destination. Today Disneyland Paris is a multi-day resort offering two world-class theme parks, six themed Disney hotels, two Disney Nature Resorts, a 27-hole golf course, the Disney Village® entertainment complex, and Europe’s largest integrated corporate events venue.
OVERVIEW

GUEST EXPERIENCE

May it be with family, friends or loved ones, there is always something unique to experience at Disneyland Paris®.

In 2019, new and returning seasonal offerings created even more magical experiences for guests! The return of Marvel Summer of Super Heroes at Walt Disney Studios Park saw the arrival of Groot and Captain Marvel, as well as thrilling shows and experiences featuring Spider-Man, Iron Man, Captain America and more. Guests also experienced Legends of the Force: A Celebration of Star Wars with a spectacular lineup of entertainment and the first encounters with Chewbacca.

An entirely new season – The Lion King & Jungle Festival – launched at Disneyland Paris on June 30, inviting guests to pounce to the beat of the Pride Lands and feel the rhythm of an all-swinging, all-dancing habitat as new shows and immersive experiences add the wildest of twists to two classic Disney masterpieces.

In summer 2020, Disneyland Paris will re-open Disney’s Hotel New York – The Art of Marvel, which will be the very first hotel dedicated entirely to the celebration of Marvel art.

Walt Disney Studios Park is also undergoing a major transformation that will add three new areas based on Marvel, Frozen and Star Wars, along with new attractions, shops, restaurants and live entertainment experiences.

COMMUNITY INVOLVEMENT

Disneyland Paris is dedicated to inspiring lasting and positive change in the community, including championing the well-being of children. That community support is most visible through the Disney VoluntEARS program, a company-sponsored initiative supporting employee volunteerism. In 2018, more than 1,000 Disney VoluntEARS donated 9,362.5 hours of their time to the community. They took part in more than 1,800 different activities, including welcoming children to the parks and hosting activities in partnership with various associations and running awareness-raising events for the environment. The Disney VoluntEARS are also involved in major solidarity events designed to raise awareness and funds for important local and national causes.

THE ENVIRONMENT

Disneyland Paris works towards striking a sustainable balance between protecting the environment and growing its business. Its long-term goal is to set the standard in sustainability for companies in the European leisure and tourism industry. The cornerstones of this approach are conserving water, energy and ecosystems; reducing waste and greenhouse gas emissions; and inspiring others to take action for the environment.

The resort is the first European theme park to feature its own water treatment station, which produces over 528,000 US gallons of clean recycled water per day used to water plants, fill decorative pools and clean roads.

Efforts to manage the resort’s impact and inspire its guests to help preserve the planet’s resources go beyond water use. Villages Nature Paris is entirely heated by natural geothermal energy and focuses on encouraging harmony between humankind and nature. Disneyland Paris also celebrates biodiversity and vegetation on-site, such as the bee hives at Disney’s Davy Crockett Ranch, and “Le Potager de Rémy” vegetable garden at Disney’s Hotel Cheyenne.

As part of The Walt Disney Company’s commitment to reduce single-use plastic waste, Disneyland Paris replaced plastic straws and stirrers in spring 2019 with 100 percent biodegradable paper straws earlier this year, which are distributed by guest request. Reusable shopping bags made out of 80 percent recycled plastic fibers have also been introduced in all shops throughout the resort.

ECONOMIC IMPACT

Disneyland Paris is committed to having a positive social and economic impact on its community. In 2017, Disneyland Paris and French public authorities presented the results of a study on the social and economic impact and contribution to tourism of Disneyland Paris over its 25 years. The destination has created more than 56,000 direct, indirect and induced jobs. Furthermore, between 1992 and 2017, the destination generated €68 billion of added value for the French Government and €7.1 billion in taxes paid. Disneyland Paris represents an impressive economic investment as each Euro invested by the state generates €11.4 in private investment.
